

Why Women Involved in Agriculture 2?

Since 2011, eighty women have completed the six-session Women Involved in Agriculture/Annie's course in the Manhattan area. Many have expressed an interest in an advanced class so they could continue learning, but also to maintain contact with friends made in the original class.

Topics for the 2015 WIA-2 series were selected from a list of suggestions by former WIA class members. The new farm bill is the January topic since all landowners and tenants will need to make a program election by March 31, 2015. The other two meeting topics -- Agriculture Advocacy and Communicating with Tenants and Family -- are always timely topics in today's world of agriculture.
